

## **BlockVision 2019 panels at the Japan Blockchain Conference to focus on the future of customer relations and inter-exchange finance**

*Yokohama, January 30, 2019* — Forbes CryptoMarkets and InfiniumOne Capital will produce two panels for its BlockVision 2019 event where two new blockchain ventures — FiO and MIEX — will be discussed at the Japan Blockchain Conference.

FiO is building a new e-commerce and customer relations ecosystem on blockchain technology, where consumers retain ownership over their valuable data, and merchants have access to a common pool or qualified leads. The project is currently in development, and it is scheduled to launch in Q2 2019. For more information, visit [www.fio.one](http://www.fio.one).

At the event, FiO will be introduced by Theodore Tse, executive director, and the panel will feature Shoichiro Tanaka (CEO of GFX); Masaya Uchino (Attorney of ZeLo); and Celeste Kwon (COO of Dominus); Timothy Lewis (Founder of Ikigai); Kevin Lee (CEO of Keypair).

MIEX is building the world's first digital asset "exchange for exchanges", an inter-exchange investment and trading platform providing access to major stable digital assets and fiat currencies, with value-added services such as credit facilities. MIEX will announce the partnership with a HKSE-listed industry leader at the event. Please visit [www.miexpro.com](http://www.miexpro.com) for more information.

The company will be represented by Curtis Plot Mak, executive director, and the MIEX panelists includes Patty Kuo (CEO of BitPoint APAC); Ken Lo (CEO & Co-Founder of ANX International); Kenneth Hsia (Advisor of ACE); and Amanda Liu (General Manager of OAX).

The BlockVision 2019 event is hosted by Forbes CryptoMarkets, the go-to platform for market insights and research on digital assets; and by InfiniumOne Capital, a global investment and technology management company that focuses on the applied use of blockchain and Web3.0 projects.

### **About InfiniumOne Capital Limited**
